collection

WE TAKE PRIDE IN EVERY DETAIL

PROUDLY PRODUCED IN DENMARK

100 years of experience - our focus on the details in cabinetmaking runs deep.

NU MED 100 ÅR I BAGAGEN

# VORES FOKUS PÅ DETALJERNE I SNEDKERARBEJDET LIGGER DYBT.

Naver Collection er et symbol på stolthed, passion og dedikation til møbelhåndværket og design. Et stærkt samarbejde siden 1995 mellem to danske møbelvirksomheder Aksel Kjersgaard A/S og Gramrode MøbelFabrik A/S. Vores designfilosofi er en hyldest til æstetik, komfort og funktionalitet. Fortidens Naver havde passion for træ og modet til at prøve nye teknikker - det har vi videreført. Materialer som træ, læder, laminat, stål og Corian® er omhyggeligt udvalgt og innovativt tænkt forarbejdet ned i mindste detalje for at skabe et gennemarbejdet og helt møbeldesign. Det er kernen i og grundlaget for vores håndværk udført af vores dedikerede snedkere, hvor bæredygtighed er en fortsat drivkraft i både dansk produktion og design. Vores møbler er ikke blot skabt med øje for oplevelse og begejstring, men også med respekt for miljøet, og til at leve og holde længe ved daglig brug i generationer.

Vores fokus på detaljerne i snedkerarbejdet og design ligger dybt. Nedarvet over tid helt tilbage til hhv. 1924 og 1952 og under stadig udvikling og fornyelse. En enestående historie takket være et vedvarende engagement og commitment til møbler i særklasse gennem årtier. Læs indstikket på side 7.

The Naver Collection is a symbol of pride, passion and dedication to the craft and design of furniture. It represents a strong collaboration since 1995 between two Danish

furniture companies, Aksel Kjersgaard A/S and Gramrode MøbelFabrik A/S. Our design philosophy pays homage to aesthetics, comfort, and functionality. Like the Navers of the past who had a passion for wood and the courage to try new techniques - we share the same spirit. Materials such as wood, leather, laminate, steel, and Corian® are carefully selected and innovatively processed down to the smallest detail to create a thoroughly crafted and complete furniture design. This is the essence and foundation of our craftsmanship carried out by our dedicated cabinetmakers, with sustainability being a continuing driving force in both Danish production and design. Our furniture is not only created with an eye for details and excitement but also with respect for the environment, meant to last and endure daily use for generations.

Our focus on the details of cabinetmaking and design runs deep, inherited over time dating back to 1924 and 1952 respectively, and continually evolving and renewing. Therefore, 2024 also marks a special milestone for Gramrode MøbelFabrik, one part of the Naver Collection collaboration, celebrating its 100th anniversary. It's a unik story thanks to sustained commitment and dedication to exceptional furniture over decades. Read the insert on page 7 for more details.

Naver Collection er møbelhåndværk med stolthed, passion og dedikation. Et solidt, givende og professionelt samarbejde mellem to danske møbelvirksomheder. Tv. snedkermester Henning Jørgensen - Gramrode Møbelfabrik A/S og th. snedkermester Jørgen Kjersgaard - AkseL Kjersgaard A/S.

Naver Collection is furniture craftsmanship with pride, passion, and dedication. A solid, rewarding, and professional collaboration between two Danish furniture companies. Left: Master Cabinetmaker Henning Jørgensen - Gramrode Møbelfabrik A/S, and right: Master Cabinetmaker Jørgen Kjersgaard - AkseL Kjersgaard A/S.

Wood possesses certain unique qualities that benefit the environment. Our goal is to create distinctive furniture designs in harmony with the environment.

**TRÆ HAR NOGLE SÆRLIGE EGENSKABER, DER HJÆLPER MILJØET**

## VORES MÅL ER AT SKABE UNIKKE MØBELDESIGNS I BALANCE MED MILJØET.

### **Fokus på bæredygtighed i omtanke for et sundt miljø**

Vores mål er ikke blot at skabe unikke møbler, men også at sikre, at fremstillingen af dem er i balance med miljøet. Vi gentænker processer for at minimere spild af træ. Enten med vores hænder i snedkerhåndværket eller med de maskiner, der indgår i en moderne møbelproduktion. Ved at optimere produktionsprocesserne kan vi minimere energiforbruget og affaldsmængden.

Vi udvælger og opskærer selv det indkøbte råtræ. Vi gør det for optimering og videreforarbejdning af træet til nye Naver Collection møbler. Det resttræ, der naturligt vil

opstå i processen, anvendes til f.eks. at lave fingertappede skuffeindsatser, bundstykker og stoledele m.v. for til sidst at stå med resttræ og spåner, der brændes og opvarmer vores produktionsfaciliteter. Alternativt indgår resttræet i nye cirkulære livscyklusser.

Focus on sustainability with regard to a healthy environment.

Our goal is not only to create unique furnitures but also to ensure, that the manufacturing is in balance with the environment. We rethink processes to minimize waste of wood, whether with our hands in joinery or with the machines involved in modern furniture production. By optimizing production processes, we can minimize energy and waste.

We select and cut the purchased solid wood ourselves. We do this for the optimization and further processing of the wood for new Naver Collection furniture. The residual wood, that naturally arises in the

process, is used for example, to make dovetailed drawers, wooden rails, chair parts, etc., ultimately leaving us with leftover wood and shavings, that are used for heating our production facilities. Alternatively, the leftover wood enters new circular lifecycles.

### Produktion i Danmark reducerer klimaaftryk

Danmark er internationalt anerkendt for møbler i unikt design og udførelse. Det er Naver Collections klare ambition og har altid været det - at skabe møbler med fokus på design, håndværk og kvalitet. Vi er stolte af at producere i Danmark. Derfor er lokal produktion en vigtig del af vores strategi. Ved at producere møbler i Danmark reducerer vi lange transportafstande, som minimerer klimapåvirkningen og støtter samtidig lokale arbejdspladser. Dette skaber ikke kun et mere bæredygtigt møbel, men det har også en positiv indvirkning på vores fælles miljø og fremtid.

Production in Denmark reduces carbon footprint.

Denmark is internationally recognized for furniture of unique design and craftsmanship. It is Naver Collection's clear ambition and has always been to create furniture with a focus on design, craftsmanship and quality. We take pride in producing in Denmark. Therefore, local production is an important part of our strategy. By producing furniture in Denmark, we reduce long transportation distances, minimizing the carbon footprint and simultaneously supporting local jobs. This creates not only a more sustainable furniture, but also has a positive impact on our shared environment and future.

### Træ har nogle særlige egenskaber, der hjælper miljøet

Vi siger det gerne og ofte: Vi elsker træ. Som Navere lever og ånder vi for træ. Det falder os helt naturligt at skabe nutidens og fremtidens møbler i træ, ofte i samspil med andre materialer, der integreres i designet.

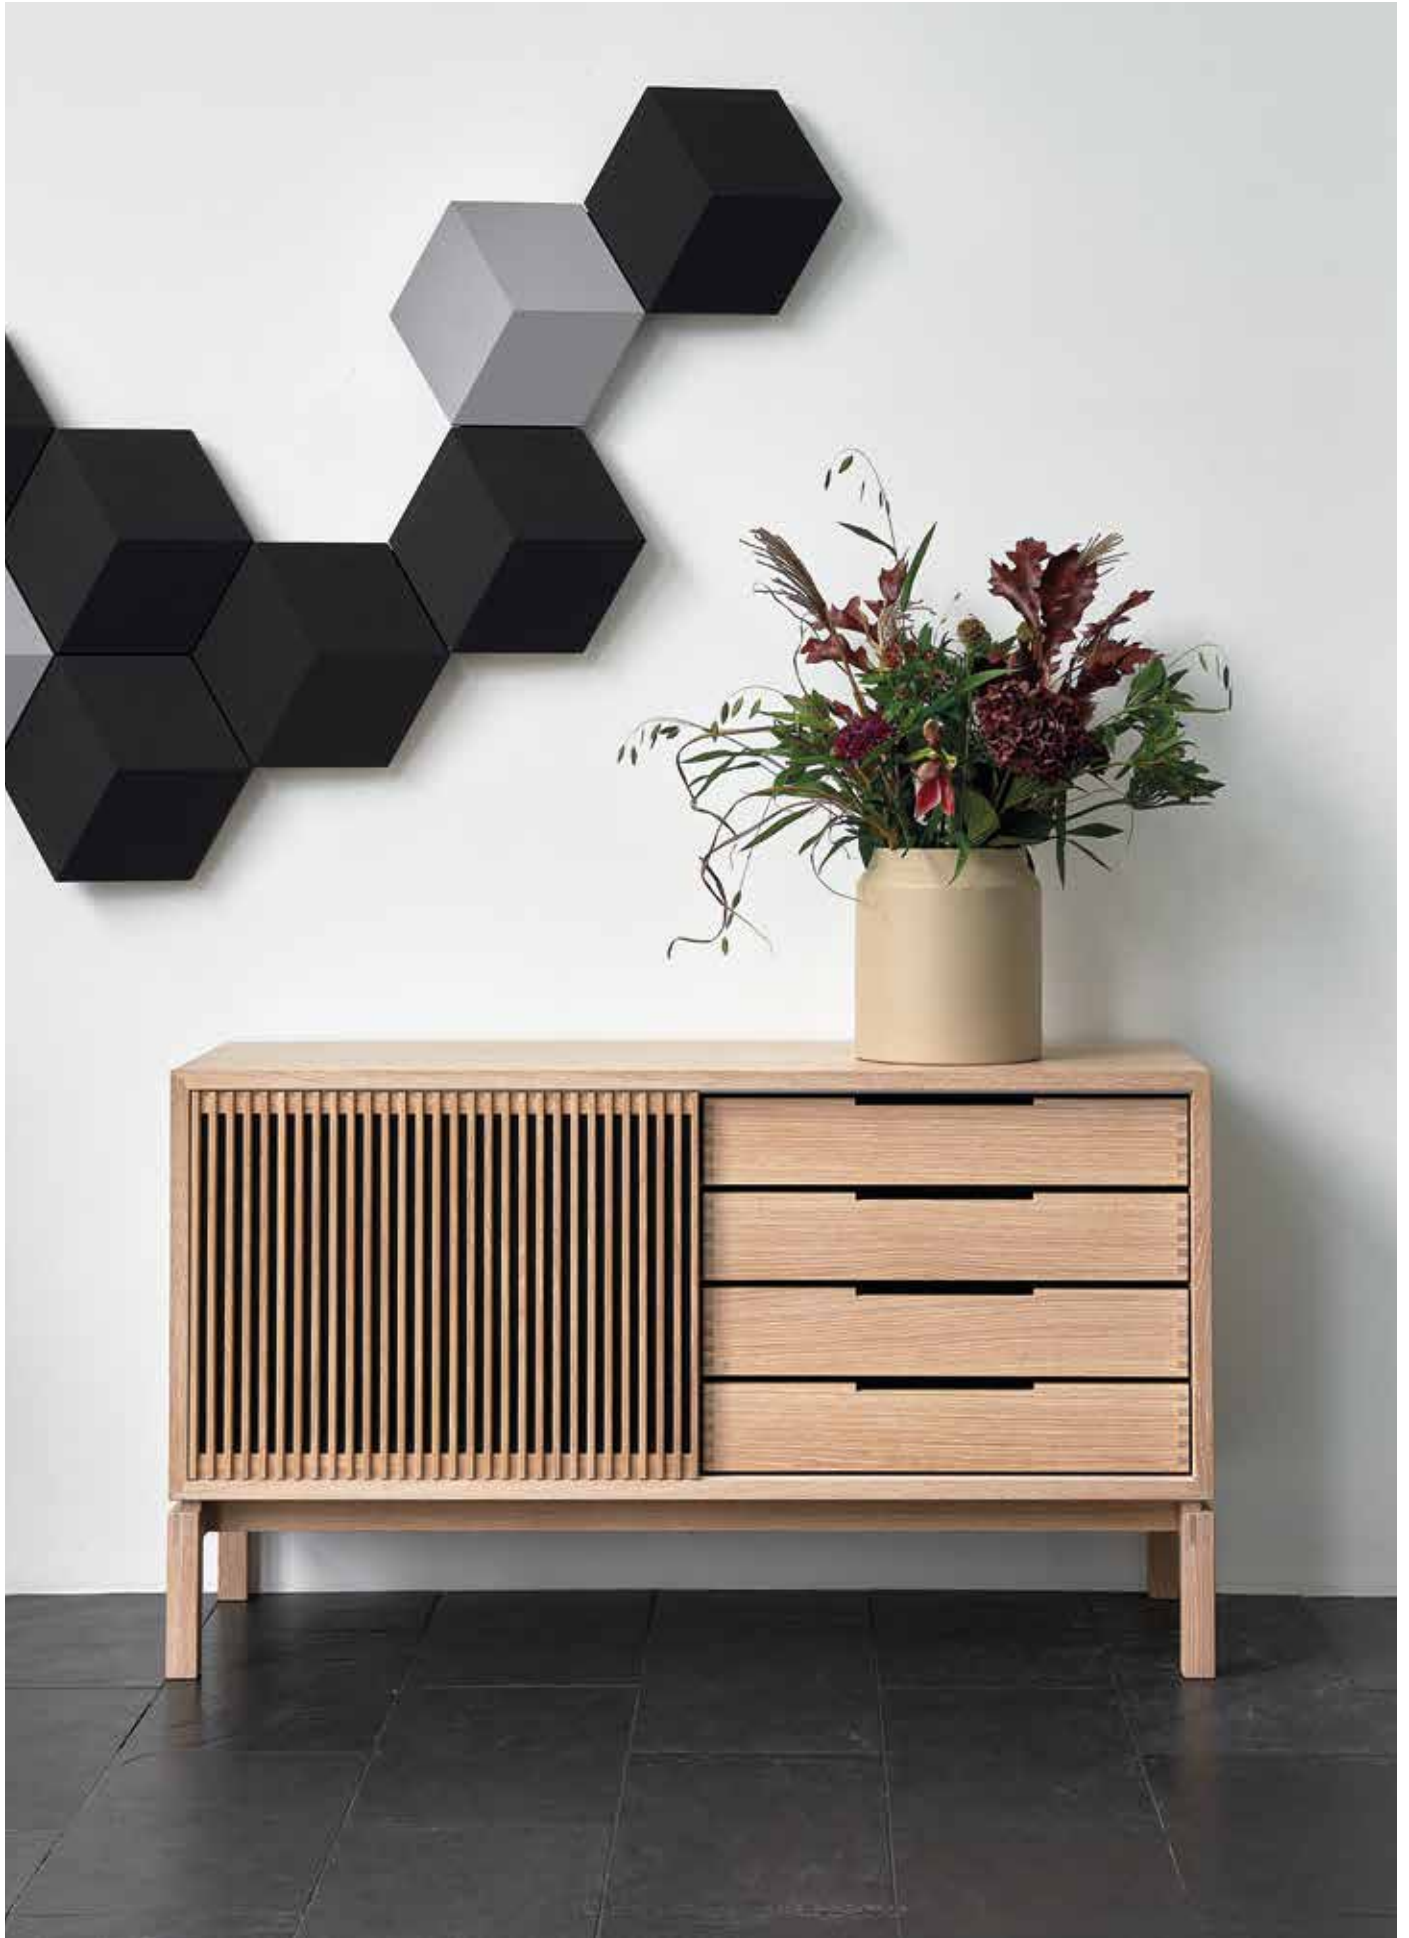

Vi gør det med stor omtanke og dedikation helt ned i detaljen i designet. Et tidløst design, der skaber begejstring i mødet og lang levetid nedsætter belastningen af naturens ressource. Træ er ikke bare et flot og levende materiale, men har derudover nogle særlige egenskaber i at optage og binde CO<sub>2</sub> gennem hele træets levetid - for egetræ typisk 100 år eller mere - inden det skoves og derefter lever videre i vores møbler eller i genanvendeligt træ. De særlige egenskaber støtter og påvirker miljøet i den rigtige retning.

Wood has some special qualities that benefit the environment.

We say it often: We love wood. As Navere, we live and breathe for wood. It comes naturally to us to create contemporary and future furniture in wood, often in combination with other materials integrated into the design. We do this with great care and dedication, down to the smallest detail in the design. A timeless design that evokes excitement upon encounter and has a long lifespan which reduces the impact on nature's resources. Wood is not just a beautiful and organic material, but also have some special qualities to absorb and bind CO<sub>2</sub> throughout the tree's lifetime - typically 100 years or more for oak - before it is cut down and continuing it's life in our furniture or in recyclable wood. These special qualities helps to support the environment positively.

Kompromisløst snedkerhåndværk og raffinerede detaljer. Ebbe Skænken AK 2030 designet af Nissen & Gehl er et pragteksmplar - helt tidløs med sine lamellåger, de fine hjørnedetaljer og de præcise, tappede samlinger.

Skydelågerens lameller skaber en smuk visuel effekt. Bag skydelågerne er skænken opdelt i to rum med glashylder samt fire skuffer.

Ebbe Skænken AK 2030 kigger både tilbage og frem i tiden.

Uncompromising craftsmanship and refined details. The Ebbe Sideboard AK 2030, designed by Nissen & Gehl, is a splendid example - utterly timeless with its slatted doors, delicate corner details, and precise dovetail joints.

The slats of the sliding doors create a beautiful visual effect. Behind the sliding doors, the sideboard is divided into two compartments with glass shelves and four drawers.

The Ebbe Sideboard AK 2030 looks back and forward in time.

Ebbe Sideboard AK 2030 |

Ro Dining Table Round GM 3792 | Design: Hans Sandgren Jakobsen  
Tiger Armchair GM 4106 | Design: Henrik Lehm

Distinctive form. The round dining table has truly made its mark in homes.

**KARAKTERISTISK FORM**

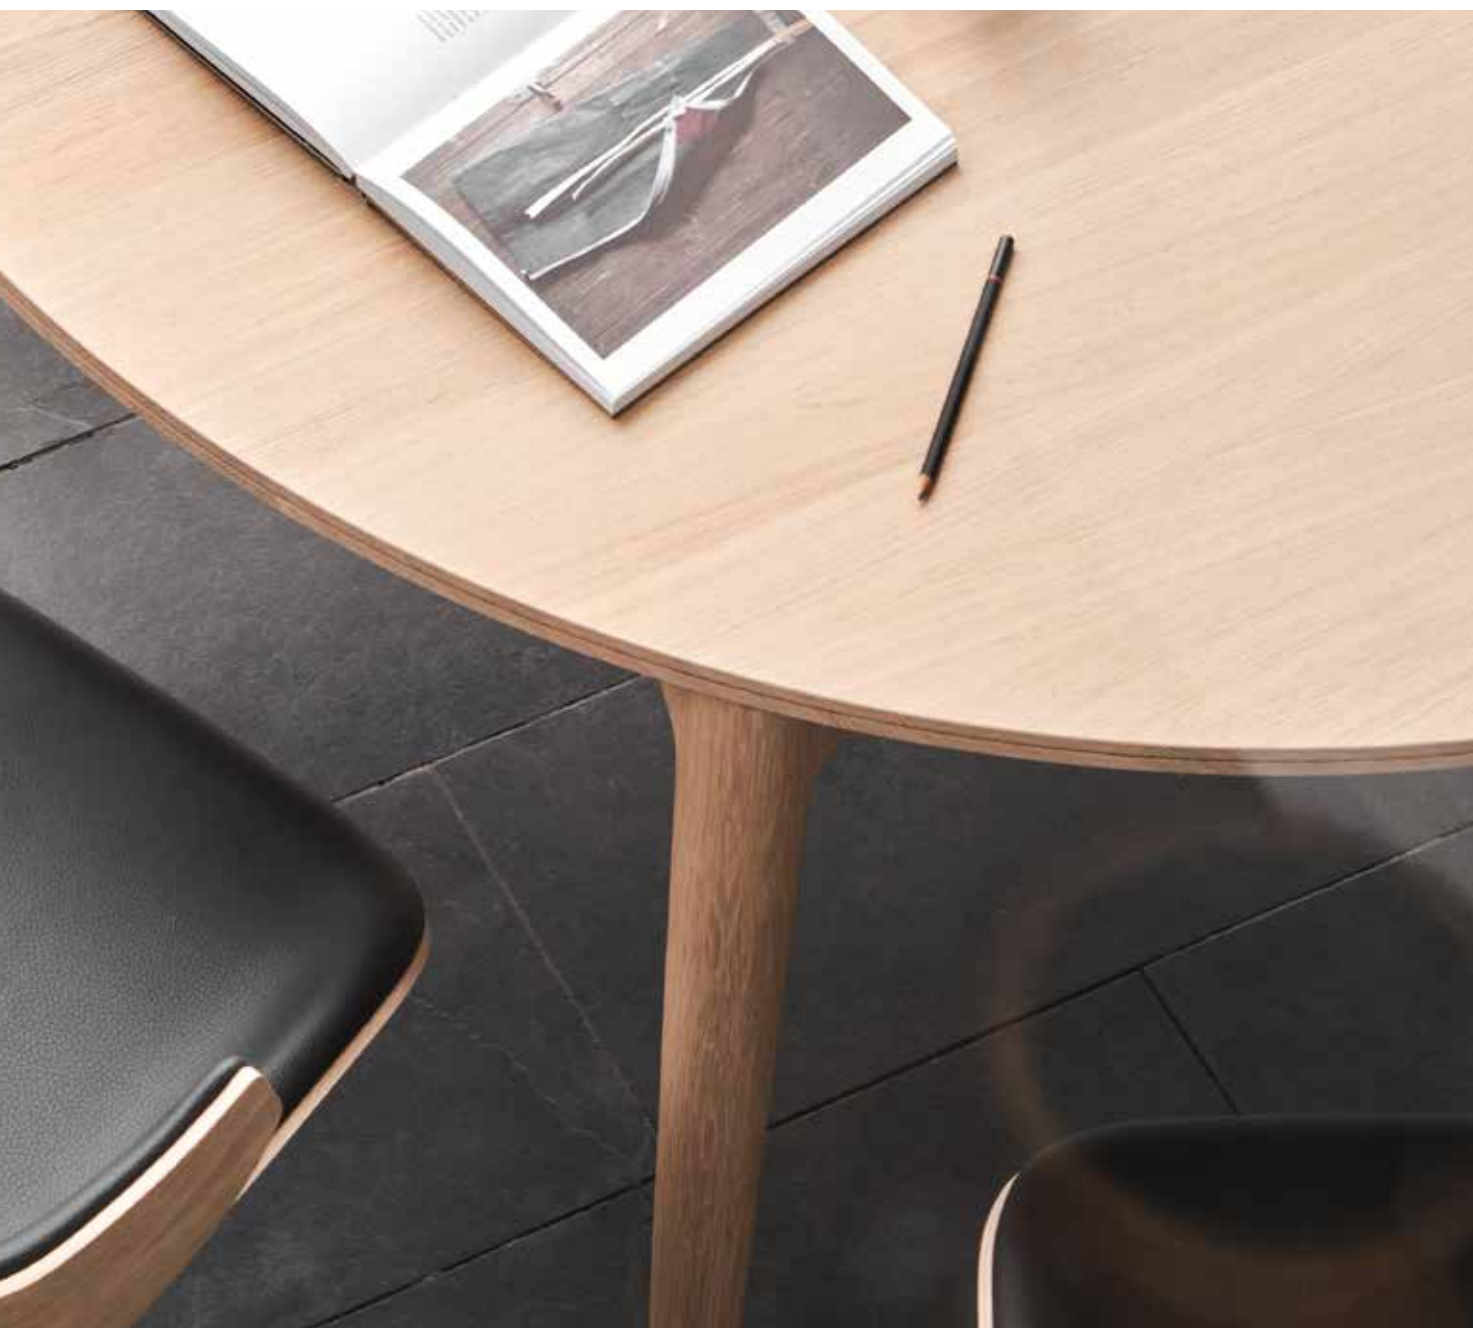

DET RUNDE  
SPISEBORD HAR FOR  
ALVOR MELDT SIG PÅ  
BANEN I HJEMMET.

Dets karakteristiske form inviterer til intime samtaler og skaber en atmosfære af fællesskab. Formen nedbryder de faste pladser og hierarkier. Alle har lige adgang til samtalen, og der skabes en følelse af ligeværd og åbenhed. Udover sin sociale og praktiske funktion er det runde RO spisebord GM 3700 også et æstetisk element i ethvert rum. Ro serien forener klassiske snedkerdyder med et stilrent design. Dets symmetriske form tilføjer en følelse af harmoni og balance til indretningen.

Its characteristic shape invites to intimate conversations and creates an atmosphere of community. The form breaks down fixed positions and hierarchies. Everyone has equal access to the conversation, fostering a sense of equality and openness. Beyond its social and practical function, the round Ro Dining Table GM 3700 is also an aesthetic element in any space. Its symmetrical shape adds a sense of harmony and balance to the decor.

Ro Dining Table Round GM 3792 | Design: Hans Sandgren Jakobsen  
Athene Swivel Armchair GM 586 | Design: Susanne Grønlund

Selvom det runde bord i forvejen inviterer til masser af plads, kan der fra tid til anden være behov for endnu mere plads. Lad tillægspladen udvide bordet nemt, praktisk og enkelt. Alternativt vælg bordets diameter med omtanke. Stort er imponant og smukt.

While the round table already invites plenty of space, there may be a need for even more space from time to time. Let the additional leaf expand and transform the space practically and easily. Alternatively, choose the table's diameter wisely. Large is impressive and beautiful.

Ro Dining Table Round GM 3792 | Design: Hans Sandgren Jakobsen  
Athene Swivel Armchair GM 586 | Design: Susanne Grönlund  
Ebbe Sideboard AK 2030 | Design: Nissen & Gehl MDD.

Gehl Dining Table GM 3060 | Design: Nissen & Gehl MDD.  
Tiger Armchair GM 4106 | Design: Henrik Lehm

Så enkelt og raffineret - Gehl Spisebord GM 3060 - er et bord både til hverdag og gæster. De to vanger, der støtter bordpladen, samt planken, der samler benbukkene kommer til syne på ydersiden - en smuk og unik snedkerdetalje. Designet leger med vinklerne for at skabe karakter, og samspil mellem træet og det rene, ærlige formsprog er på samme tid både dynamisk og harmonisk. Bordpladens rundinger er kombineret med en faset kant, der tilfører en blødhed til det ellers stringente look. Her vist i symbiose med Tiger Armstol GM 4106.

Gehl bordet GM 3060 blev Ebbe Gehls sidste ikoniske design.

So clean and refined - Gehl Dining Table GM 3060 - is a table for both everyday use and guests. The two woodsupports that hold the tabletop, as well as the plank that joins the legs, are visible on the outside - a beautiful and unique crafted detail. The design plays with angles to create character, and the interaction between the wood and the clean, honest design language is both dynamic and harmonious at the same time. The curves of the tabletop are combined with a beveled edge, adding softness to the otherwise stringent look. Here shown in symbiosis with Tiger Armchair GM 4106.

The Gehl table GM 3060 became Ebbe Gehl's last iconic design.

Dining Table Oval GM 2152 | Design: Nissen & Gehl MDD.  
Tiger Armchair GM 4106 | Design: Henrik Lehm

Gepard Lounge Chair GM 4175 | Design: Henrik Lehm  
Ebbe Sideboard AK 2060 | Design: Nissen & Gehl MDD.

RO Dining Table, Nano Top GM 3700 | Design: Hans Sandgren Jakobsen  
Midas Chair GM 575 | Design: Susanne Grönlund  
Ebbe Sideboard AK 2060 | Design: Nissen & Gehl MDD.

Designer Hans Sandgren Jakobsen har tænkt på detaljen i Ro langbordet, hvis behovet opstår for mere bordplads. Træk let de to stokke ud i enden af bordet for at isætte tillægspladen, og skub dem tilbage igen efter brug, så de er plan med stellet. Visuelt tilføjer stokkene karakter og finesse til bordet.

Designer Hans Sandgren Jakobsen has considered the detail in the Ro Long Table, in case the need arises for more tabletop space. Pull out the two poles at the end of the table to insert the extension leaf, and push them back after use so they are flush with the frame. Visually, the poles add character and finesse to the table.

Ebbe Gehl var en sand mester i design verden og har stået fadder til utallige banebrydende designs i Naver Collection. Hans evne til at inspirere gik langt ud over det sædvanlige, og hans kreativitet kendte ingen grænser. Ebbe formåede at udfordre konventionerne og tager træarbejde til nye højder, alt imens han kombinerede det med Corian®, stål og glas, der giver hans møbeldesigns en unik karakter. Hans arbejde bærer tydeligt præg af dyb forståelse for, hvad design kan, der ikke kun er æstetisk tiltalende, men også praktisk og funktionelt, hvilket gjorde hans arbejde bemærkelsesværdigt. Ebbe Skænk AK 2030-2060 og Gehl bordet GM 3060 blev Ebbe Gehls sidste ikoniske design. **For blot at nævne nogle unikke design for Naver Collection:** Oval Skænk AK1300 | Strawberry sofabord AK 2560 | Turn bakkebord AK 725 | Point Skrivebord AK 1330 | Spisebordene GM 2100 | GM 7700 langbord med Corian®.

Ebbe Gehl was a true master in the world of contemporary design and has created countless unique designs in Naver Collection. His ability to inspire went far beyond the ordinary, and his creativity knew no bounds. Ebbe managed to challenge conventions and elevate woodworking to new heights, while combining it with Corian®, stainless steel and glass, that gave his furniture designs a unique character. His work clearly reflects a deep understanding of what design can achieve, not only aesthetically pleasing but also practical and functional, making his work remarkable. Ebbe Sideboard AK 2030-2060 and Gehl Dining Table GM 3060 were Ebbe Gehl's last iconic designs. **Some of the remarkable design for Naver Collection include:** Oval Sideboard AK1300 | Strawberry Coffee Table AK 2560 | Turn Table AK 725 | Point Desk AK 1330 | Dining Table GM 2100 | Dining Table GM 7700 with Corian®.

OG UNIKKE MØBLER  
MED ENKLE DETALJER  
OG GOD FUNKTION.

Tiger Barstool GM 4107 | Design: Henrik Lehm

Henrik Lehms passion for møbler ligger særligt på spisebordsstole og lounge stole. Han har dedikeret sig til kunsten at sidde godt og længe. En stol er ikke bare et møbel, det er en kilde til komfort, afslapning og stil. Han forstår, at sidde godt handler om mere end blot et blødt sæde. Det kræver opmærksomhed på detaljer, det rette design og en forståelse af kroppens behov. Æstetisk skal den være tiltalende, men også ergonomisk designet for at sikre, at gæsterne kan nyde måltiderne komfortabelt over en lang aften. **For blot at nævne nogle unikke design for Naver Collection:** Tiger Armchair GM 4106 | Gepard Lounge Chair GM 4175 | Tiger Barstool GM 4107.

His passion for furniture lies particularly in dining chairs and lounge chairs. He has dedicated himself to the art of sitting well and for extended periods. A chair is not just a piece of furniture; it is a source of comfort, relaxation, and style. He understands that sitting well involves more than just a soft seat. It requires attention to detail, the right design, and an understanding of the body's needs. A chair can enhance the dining experience. Aesthetically, it should be appealing, but it should also be ergonomically designed to ensure that guests can enjoy their meals comfortably over a long evening. **Some of the remarkable design for Naver Collection include:** Tiger Armchair GM 4106 | Gepard Lounge Chair GM 4175 | Tiger Barstool GM 4107.

Designer Henrik Lehm has a fondness for chairs.

DESIGNER  
HENRIK LEHM  
HAR EN

Tiger Chair GM 4105 | Design: Henrik Lehm

Med et blødt og menneskeligt formsprog skaber designer Susanne Grønlund sine designs med fokus på et indbydende udtryk, brugervenlighed og et let stilfuldt formsprog. Hun blander gerne forskellige tilgange til konstruktion og materialer. Inspirationen finder hun i omgivelserne og tiden, hvor bæredygtighed er en betydende faktor i designprocessen. Hun har modtaget en række internationalt anerkendte designpriser såsom: 3x RedDot Award, 4x Norwegian Design Council Design Prize, 2x German Design Award. **For blot at nævne nogle unikke design for Naver Collection:** Midas armstol GM 575 -576 og GM 586 Athene drejestol med arm.

With a soft and humanistic language, designer Susanne Grønlund creates her designs with a focus on an inviting expression, user-friendliness, and a light stylish language. She enjoys blending different approaches to construction and materials. She finds inspiration in the surroundings and the times, where sustainability is a significant factor in the design process. She has received a number of internationally recognized design awards such as: 3x RedDot Award, 4x Norwegian Design Council Design Prize, 2x German Design Award. **Some of the remarkable design for Naver Collection include:** Midas armchair GM 575-576 and GM 586 Athene swivel chair with arm.

With a soft and humanistic approach, Susanne Grønlund creates her designs.

OLIVER HESSELD AHL, 25 ÅR

147

EMPLOYEE

Ansatt i 2 år

Maskinsnedkerlærling - og snart færdiguddannet.

Oliver elsker snedkerfaget og glæden ved at bruge sine hænder. Han har netop deltaget i DM i Skills.

Dyrker styrketræning i fritiden og er bartender på en af byens barer.

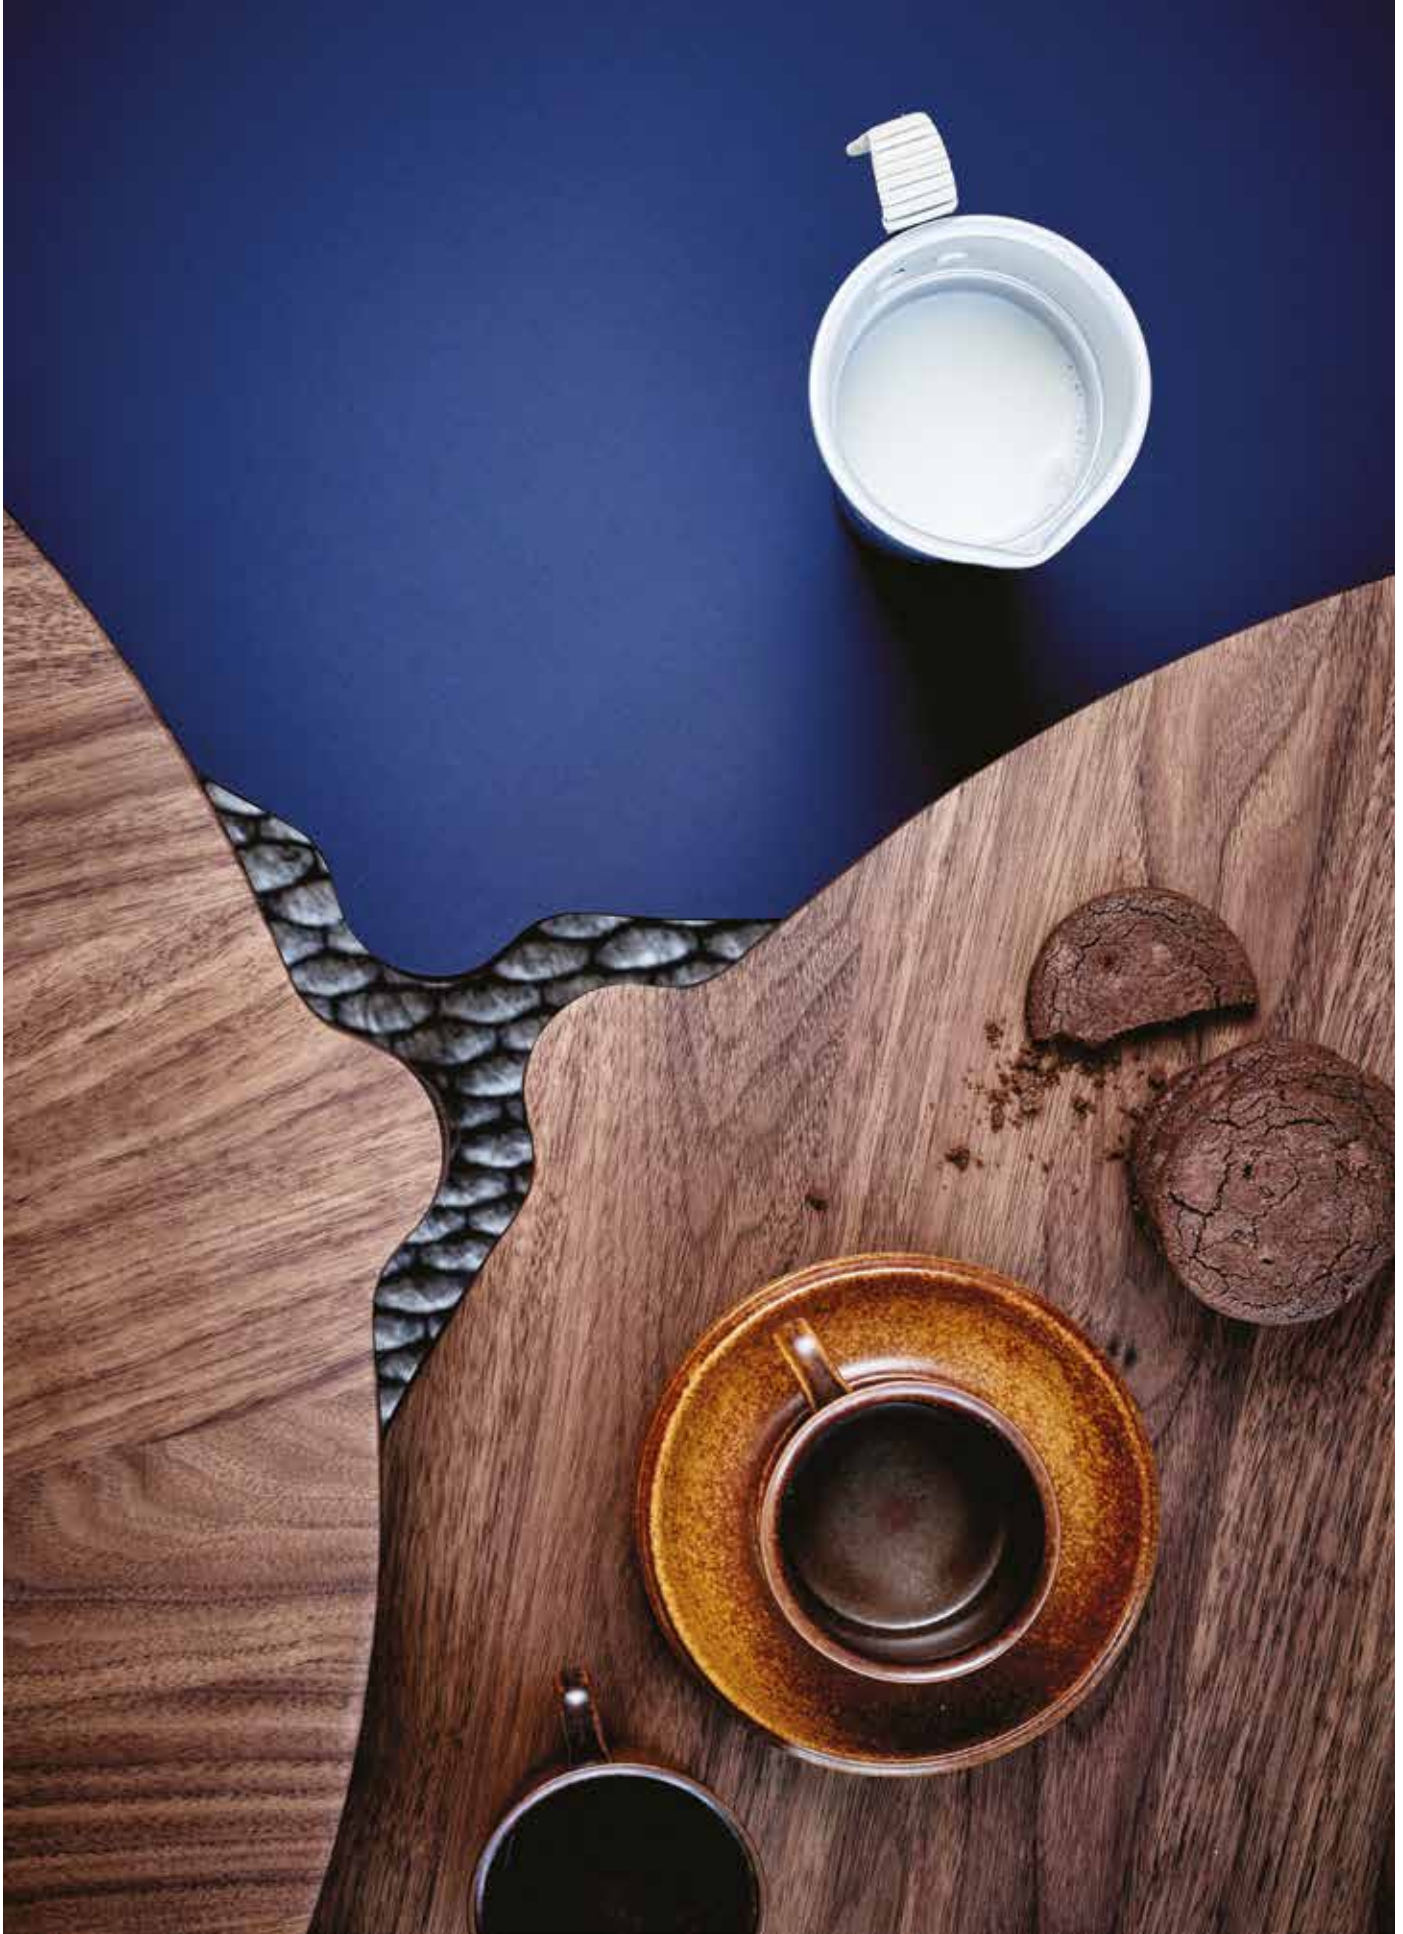

Oliver Hesseldahl, 25 years. Cabinetmaker apprentice - graduating in 1 year.

Oliver loves cabinetmaking and working with his hands. He has recently participated in the DM in Skills competition.

In his sparetime he enjoys training in the gym and works as a bartender at one of the city's bars.

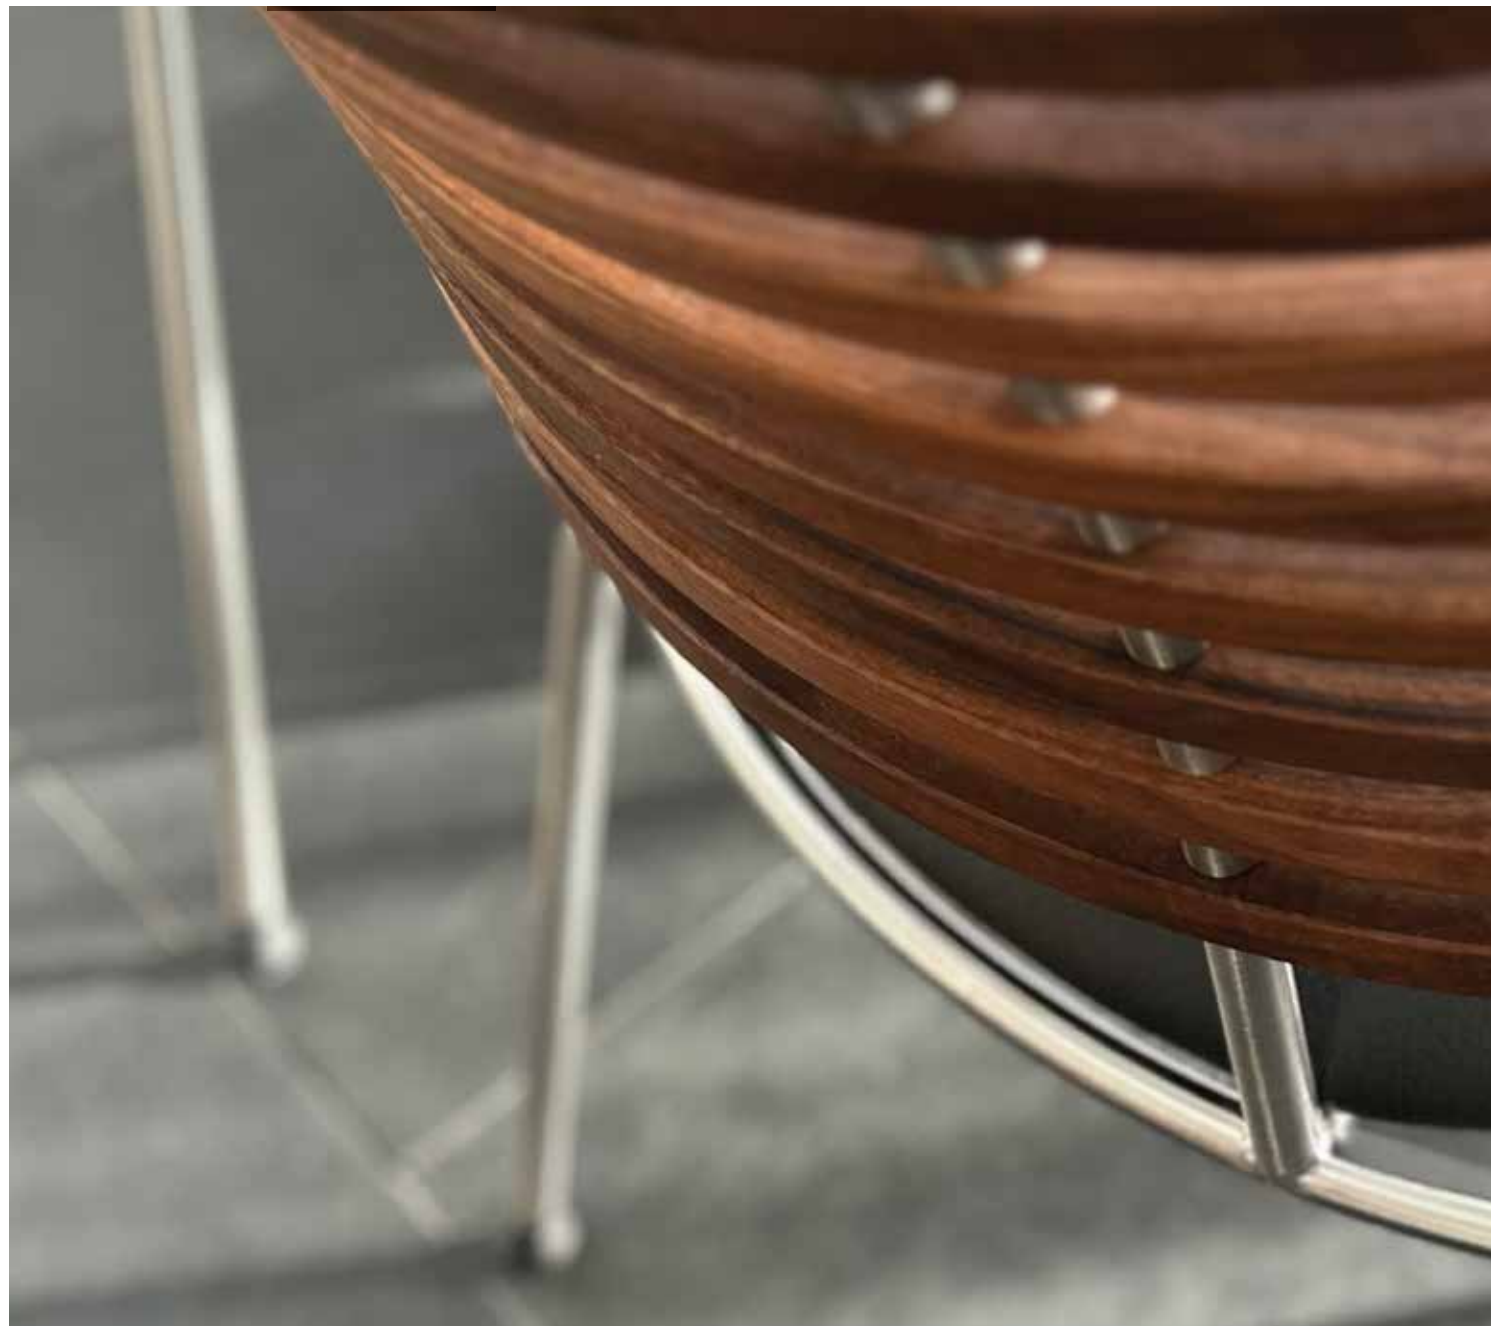

Orbit Coffee Table AK 530 | Design: Nissen & Gehl MDD.

19 år efter sin lancering fortsætter Tiger stolen med at berige rummet omkring spisebordet. Den tidløse og smukke udformning af stolen har gjort den til fast inventar i skandinaviske hjem. Tiger stolen er en harmonisk fusion af æstetik og siddekomfort. Designet er skabt med omhu og dedikation af designer Henrik Lehm, der har forståelse for kunsten at skabe en stol, man behageligt kan tilbringe timevis i ved spisebordet.

Nineteen years after its launch, the Tiger chair continues to enrich the space around the dining table. The timeless and beautiful design of the chair has made it a staple in Scandinavian homes. The Tiger chair is a harmonious fusion of aesthetics and seating comfort. The design is created with care and dedication by designer Henrik Lehm, who understands the art of creating a chair that you can comfortably spend hours in at the dining table.

Oval Sideboard AK 1300 | Design: Nissen & Gehl MDD.

Chess Dining Table, Corian Top GM 3400, Black Steel legs | Design: Nissen & Gehl MDD.  
Tulip Chair GM 316 | Design: Nissen & Gehl MDD.

Butterfly-udtræk i midten af spisebordet GM 3421 gør det nemt at udvide spisebordet. Ubesværet folder pladen sig sammen for at forsvinde, skjult under bordpladen, i en glidende og let bevægelse.

The butterfly extension in the center of dining table GM 3421 makes it easy to expand the table. The leaves gracefully fold themselves, easily and elegantly, to disappear, concealed under the tabletop, in a smooth and effortless movement.

THE  
NAVER  
COLLECTION IN  
EVERY DETAIL,  
DESIGN BY DESIGN.

Naver Collection er ønsket om, at skabe det gode boligliv. En kombination af design, æstetik, komfort og funktionalitet. Skabt af materialer i høj kvalitet - træ, læder, laminat, stål og Corian® - nøjsom udvalgt og innovativt tænkt ned i detaljen til et færdigt møbel. Holdbar i årtier i et tidløs design, der vækker en naturlig følelse af glæde.

Dyk ned i detaljen på de enkelte designs på følgende sider. **Se mere på [navercollection.com](http://navercollection.com)** - her kan du visualisere de enkelte designs 360° rundt. Skifte træsort, stel- og læderfarver.

Naver Collection is the aspiration to create the good life, a blend of design, aesthetics, comfort and functionality. Crafted from high-quality materials - wood, leather, laminate, steel and Corian® - meticulously selected and innovatively conceived down to the smallest detail to form a finished piece of furniture. Durable for many years, the collection boasts a classic and timeless design that evokes a natural sense of joy. Enjoy the details of each design on the following pages. **See more at [navercollection.com](http://navercollection.com)** - here, you can visualize the individual designs in 360 degrees. Change wood types, frame, and leather colors.
